Submersible Dewatering Pump

(IFSD Series)

IFSD series of dewatering pumps are specially designed for sea water, rain water and construction dewatering. The design of light weight, low maintenance. Vertical construction of pump, bottom suction and top discharge ensure to remove maximum water from pit.

Technical Features

Motor:	Two Pole Construction Duty Squirrel Cage Submersible Type Induction Motor
Insulation Class:	F
Protection:	IP – 68 / Thermal Over Load / Moisture
Cable:	Oil Proof PVC Insulated Double Sheathed Copper Conductor Flexible Cable

Material of Construction

Motor Body:	S.S 202/304 or Aluminium
Cooling Jacket:	S.S 202/304 / M.S
Impeller	C.I IS 210 FG260 / S.S 304 / S.S 316
Shaft:	S.S 431
Strainer:	S.S 304
Mech. Seal:	Double type: TC Vs. TC
Bearing:	Deep Groove Ball Bearing (Top), Double Row Angular Contact Bearing (Bottom)

PERFORMANCE TABLE

IFSD Series (2900 rpm) 50Hz
